

# Pumpkin Crumb

## PUMPKIN CRUMB LOAF

- 1** Preheat oven to 350F. While oven is preheating, unwrap the outer plastic wrap and place the frozen pumpkin loaf in the center of a baking sheet. If the oat streusel topping shifted during shipping, spread them evenly on the top.
- 2** Place the baking sheets in the middle of the oven. Bake the pumpkin loaf for 50-60 mins. in a conventional oven, 40-50 mins. for convection oven\*. To check if the pumpkin loaf is done, insert a toothpick in the center of the loaf. Once the toothpick comes out dry with no batter sticking to it; the pumpkin loaf is baked.
- 3** When the pumpkin loaf is done, remove from oven and allow to cool. Cool down completely before you enjoy them, which takes about 15 mins. Unmold the paper liner by peeling off the folded corners, slice, and enjoy!

\*Because all ovens vary, check the pastries 5 mins. before the recommended baking time.
