

# Gingersnap Cookie

## GINGERSNAP COOKIE

- 1** Preheat oven to 350°F. While oven is preheating, place provided parchment paper on the baking sheet, then place frozen cookies on parchment paper and make sure the cookies have at least 3" of space between each piece to bake evenly. Allow the cookies to thaw slightly approximately 15-20 minutes. Take the top side of the cookie and dip the top half into the crystal sugar provided.
- 2** Place the baking sheet in the middle of the oven. Bake cookies 12-15 mins. in a conventional oven, 9-12 mins. for convection, or until top and bottom are golden brown.
- 3** When cookies are done, remove from the oven and allow to cool. Allow cookies to cool completely before you enjoy them, which takes about 15 minutes.

\*Because all ovens vary, check the cookies 5 mins. before the recommended baking time.
